

To: John Howarth, John Howarth Hydropower Services, 2 St Albans, Borth, Ceredigion SY24 5LN

Date: 23 October 2014

Dear Mr Howarth,

**Confirmation of FIT preliminary accreditation: Anafon Hydro**

I am writing to confirm that the renewable installation set out above has been granted preliminary accreditation under the Feed-in Tariff (FIT) scheme.

The preliminary accreditation number is: **P00151HDWA**

The tariff date is: **13 August 2014**

The validity period starts on: **13 August 2014**

The validity period ends on: **12 August 2016**

The material particulars of this FIT preliminary accreditation are:

Address: **Anafon Hydropower Scheme, Abergwynnregyn, Gwynedd, LL33 0LP**

Total installed capacity: **271kW**

Technology: **Hydro**

Grid capacity status: **Grid connected**

Should you go on to commission an installation which differs in any way to the material particulars above, the preliminary accreditation and associated tariff guarantee may be void.

**Important information:**

**YOU MUST** submit an application converting the preliminary accreditation to a 'full' ROO-FIT application and the installation must be commissioned before the validity period end date. Failure to complete these two actions will result in the preliminary accreditation tariff guarantee being void.

Please note that the **eligibility date** for a preliminary accreditation which has converted to full accreditation is the later of the commissioning date and the date the application is "converted to full".

Further information explaining how to convert your preliminary accreditation to full accreditation is available in the 'Feed-in Tariff: Guidance for Renewable Installations' available at: [www.ofgem.gov.uk/fits](http://www.ofgem.gov.uk/fits)

This grant of preliminary accreditation is provided solely under and for the purposes of The Feed-in Tariffs Order 2012 (as amended). It does not constitute any form of approval of the documents which accompanied your application for FIT preliminary accreditation for any other purpose.

**Please find attached our 'How to submit a successful ROOFIT application' guide. In this guide we aim to help you avoid the common mistakes that can lead to delays in accreditation and Feed-in Tariff (FIT) payments.**

Assuming the installation goes on to receive full ROO-FIT accreditation, the FIT tariff that will be assigned to the installation will be the tariff available on the tariff date. The suite of tariffs available on the tariff date is available from the 'Scheme Tariff Tables' section of our website: [www.ofgem.gov.uk/fits](http://www.ofgem.gov.uk/fits)

Please contact the ROO-FIT team on 0207 901 7310 or [ROOFIT@ofgem.gov.uk](mailto:ROOFIT@ofgem.gov.uk) in the first instance if you have any queries with respect to this preliminary accreditation or would like further information on how to apply to convert this preliminary accreditation to full accreditation.

Yours sincerely,

**Richard Bellingham**
